

Bayanix is invited to speak about careers in construction

Peabody organised a careers carousel morning for local students, taking place at The Moorings Sociable Club in Thamesmead, which was newly refurbished by Bayanix.

Bayanix was invited to come along and speak to the students (Years 10-12) about the varied careers in construction, how to get into a construction career and the personal journeys of the team taking part.

Bayanix Contracts Director, Paul Wiltshire said:

"I really enjoyed talking to all the students about my career path, listening to their views on construction and what career they want to pursue.

I hope we have inspired some of the young people to explore career options in construction to help bring the next generation into the industry"
