BACKGROUND

Bayanix are delighted to have been appointed as the Principal Contractor for roll out of Pocket Geek stores in the South of England.

Our brief is to convert existing phone repair stores into Pocket Geek stores and also to fitout new stores in the Pocket Geek brand.

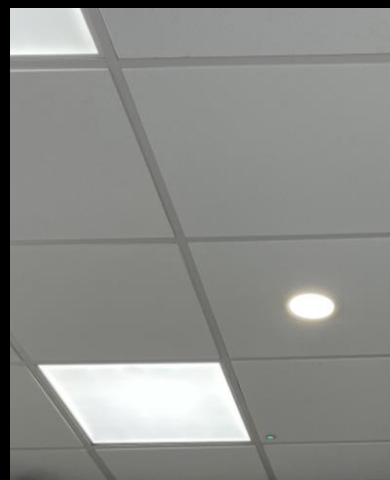

Assurant is a leading global provider of mobile device protection. Their Pocket Geek stores offer reliable repair for mobile devices and also supply accessories from screens to batteries and everything in between.

We are looking forward to working with Assurant to bring Pocket Geek stores to a town near you.

“Being part of this exciting journey by Assurant is really rewarding. A full understanding of the clients original brief helped us jointly develop the specification. Bayanix are very well positioned to now crack on and deliver multiple stores during 2022.

Neal Bailey, Managing Director
Bayanix Ltd

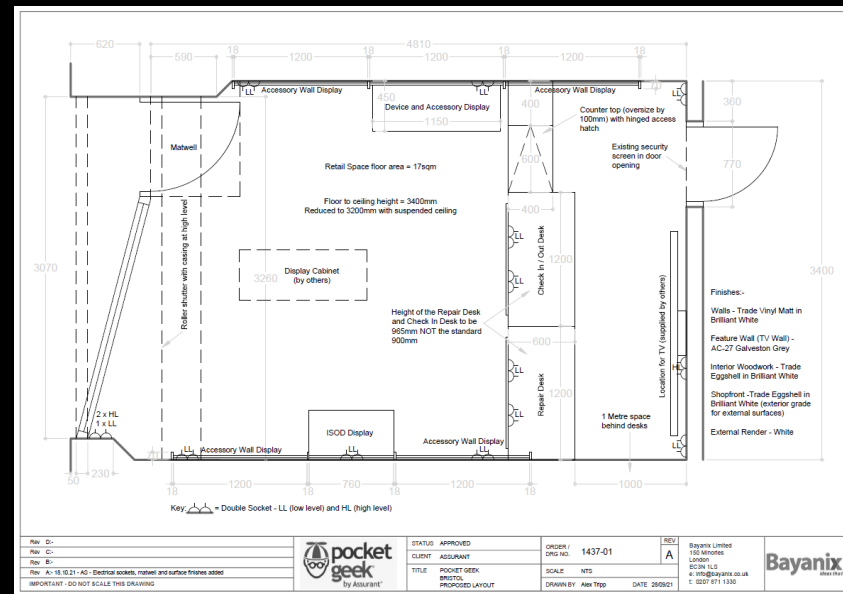

OUR WORK

Preparation

- Site measurement and survey
- Defining the scope of works
- Design of the layout to suit the brand template
